Objectives

A talented individual with a passion for software development, who thrives in a fast-paced environment. Seeking a challenging opportunity where I can use my skills to benefit an organization's mission.

Education

BISHOP MORROW SCHOOL
- X: 97% (ICSE)   2017

KALYANI CENTRAL MODEL SCHOOL
- XII: 91.8% (CBSE)   2019

UNIVERSITY OF ENGINEERING AND MANAGEMENT
- B.TECH-COMPUTER SCIENCE ENGINEERING   (CGPA:9.96)   2019-2023

Projects

•Grocery List Application
Designed and developed a web-based Grocery List Application to provide an organized solution for managing grocery items.
– Tools and technologies used: C,JAVA
– Implemented CRUD (Create, Read, Update, Delete) operations through Java event listeners, allowing users to easily add, edit, or remove items from their grocery list.
– Ensured secure task persistence by implementing local storage methods, guaranteeing that users' grocery lists are always accessible, even after closing the application
 •Automated Attendance System
– Tools and technologies used: Python
– Implemented CRUD (Create, Read, Update, Delete) operations, allowing users to easily add, edit, or remove items from their attendance list.

Skills

• Languages : C/C++(OOPs), JAVA, Python.
• Soft Skills : Communication, TeamWork, Problem Solving, Determination towards work

Achievements

•Study in India Merit Scholarship Ministry of Resource and Development for a limited International Students
•Winner of Smart India Hackathon 2022
•Runner Up, Prod-O-Mania:The Product Management and Analytics Case Competition SJMSOM, IIT Bombay.
